

Report on the College-level Students Innovation Challenge 2023

Under the Scheme of Maharashtra Student Innovation Challenge 2023

Introduction:

The College-level Students Innovation Challenge 2023, held under the scheme of the Maharashtra Student Innovation Challenge 2023, was a remarkable event organized by the Shivaji Science Innovation Incubation Centre on **October 10, 2023**. The competition provided a platform for students to showcase their innovative ideas and solutions to a panel of esteemed judges, with the aim of fostering creativity and problem-solving skills among young talents.

Participants and Judges:

The competition saw enthusiastic participation, with a total of **42** innovative ideas submitted by registered students from various disciplines. The event was graced by the presence of **Dr. Shahin K. Sayyad**, Assistant Professor of the Department of Physics at Shri Shivaji Science College, Nagpur, who served as one of the judges. Dr. Sarang Dhote, the Incharge of the Innovation and Incubation Center, & Coordinator of Maharashtra Student Innovation Challenge 2023 was also actively involved in evaluating all presentations.

Selection Process:

To ensure fair assessment, all submitted ideas were evaluated as per the valuation scheme of the Maharashtra Student Innovation Challenge 2023. The judges considered various factors such as creativity, feasibility, potential impact, and presentation skills in their assessment. After a rigorous evaluation process, two ideas were selected to advance to the district-level competition. These ideas not only demonstrated exceptional innovation but also had the potential for practical implementation and positive societal impact.

Winning Ideas:

The following two ideas were selected to represent our college at the district-level competition:

Green Wave Shield - 1 - Presented by **Ms. Avanti Pusdekar**, this idea represents a pioneering effort in the development of an antiradiation cover derived from biological thin film sourced from nature's waste. By combining sustainable materials and innovative technology, this initiative addresses the pressing issue of electromagnetic radiation exposure while contributing to a greener, more environmentally conscious future. **49.3** marks secured out of 50.

Eco Pen Harnessing Microbial PHAs for Greener Writing Tool 2 - Presented by **Soumya Sunil Yadav**, the idea presents an innovative and environmentally conscious approach to address a pressing global issue: waste management. This project explores a sustainable solution by converting microbial PHA polymer into a biodegradable pen. **42.5** marks secured out of 50.

Conclusion:

The College-level Students Innovation Challenge 2023, conducted as part of the Maharashtra Student Innovation Challenge 2023, was a significant success. It provided a platform for students to showcase their innovative thinking and problem-solving abilities. The participation

of Dr. Shahin K. Sayyad and Dr. Sarang Dhote as judges added credibility to the competition and ensured fair evaluation.

The two winning ideas chosen to represent our college at the district level have great potential, and we look forward to their progress in the subsequent rounds of the competition. This event exemplifies our commitment to promoting innovation and entrepreneurship among our students, and we anticipate even more ground-breaking ideas in the future.

We extend our gratitude to all the participants, judges, and organizers for making this event a success and for contributing to the culture of innovation at our college.

Date- 10/10/2023

Sr. No.	Name	Idea	Sign Of Student	
1	Safura Mirza	Casava plastic	Safura	29.3
2	Safura Mirza	E-commerce platform for kirana stores	Safura	13.2
3	Safura Mirza	A Smart Colorimeter	Safura	37.5
4	Sanjana Sadanand Jangade	E-waste management	Sanjana	32.2
5	Sakshi Mohite	Development of biodegradable ink for chromatography	Sakshi	31.7
6	Kanchan Singh	Separation of toxic metal on bismuth nitrate using micellar chromatography	Kanchan	31.9
7	Sanika bokade	Robot vacuum cleaner	Sanika	27.5
8	Sanika bokade	Road from waste plastic	Sanika	21
9	Bhumika sushil shriwaw, Jiya A yadav & Rafiya Anjum sheikh	Biodegradable ink for banner printing	Bhumika	22.5
10	Soumya Sunil Yadav	Eco Pen: Harnessing Microbial PHAs for Greener Writing Tools	Soumya	42.5
11	Bhumika sushil shriwaw, Jiya yadav & Rafiya Anjum Sheikh	**Pen the Change: How to Switch from Non-Biodegradable to Biodegradable Pens and Save the Environment**	Bhumika	36.1
12	Sakshi Mohite	Geo-Mapping of Toxic Metals in Spiked Water Samples using Micellar Chromatography for Environmental Monitoring.	Sakshi	31.2
13	SEJAL SANJAY BULKUNDE	SUSTAINABLE SYNTHESIS OF ZINC AND SILVER NANOPARTICLES FOR ECO-FRIENDLY MOUTHWASH.	Sejal	22.7
14	Sanika Bokade	SOD	Sanika	36.4
15	Sanika Bokade	Edu-M	Sanika	36.3
16	Sanika Bokade	Homely	Sanika	31
17	Sanika Bokade	Live Attendance	Sanika	29
18	Avanti pusdekar	Green Wave Shield	Avanti	44.3
19	Soumya Sunil Yadav	Proserve: Services At Your Fingertips	Soumya	36.9
20	Radha Somkuwar, Aparna Kurrewar, Divya Devikar	Craft board box for power-bank	Radha	22
21	Sajani Faddas	Camp facilities	Sajani	30.3
22	Grishma Vinod Ghaturlle	foldable emergency lamp	Grishma	237.2
