Certificate of Recognition

Date: 14/05/2023

Presented to

Shri Shivaji Education Society Amravati's

Science College, Nagpur, India

In recognition of the outstanding achievement in developing the Interactive Smartphone application for the **Kigulu Chiefdom Heritage site**. This exemplary project, completed by **Dr.Sarang S. Dhote**, Coordinator of Shri Shivaji Science Innovation and Incubation Centre Nagpur, along with his dedicated students, has significantly enhanced the accessibility of information about the heritage site for visitors.

Through the innovative use of technology, this initiative has not only provided easy access to historical and cultural insights but has also contributed immensely to the preservation and promotion of our rich heritage. The dedication, creativity, and collaborative spirit demonstrated by **Dr.Sarang S. Dhote** and his students exemplify the highest standards of academic excellence and community engagement.

It is noteworthy that this remarkable project was accomplished without any financial assistance, underscoring the commitment and resourcefulness of the team. By aligning with the UNESCO goals, this endeavour embodies a profound dedication to education, cultural preservation, and sustainable development.

On behalf of the **Uganda Community Museums Association (UCOMA)**, we extend our sincerest appreciation and commendation to Shri Shivaji Education Society Amravati's Science College, Nagpur, for their invaluable contribution to heritage conservation and education.

Mr.Kitaulwa Abraham
President, UCOMA,

Certificate of Recognition

Presented to

Shri Shivaji Education Society Amravati's

Science College, Nagpur, India

In recognition of the outstanding achievement in developing the Interactive Smartphone Application for the **Kigulu Museum**. This innovative project, spearheaded by **Dr.Sarang S. Dhote**, Coordinator of Shri Shivaji Science Innovation and Incubation Centre Nagpur, along with his dedicated students, has significantly enhanced the visitor experience at the museum.

Through the utilization of modern technology, this smartphone application provides visitors with interactive access to information about historical artifacts housed within the Kigulu Museum. The seamless integration of historical content with smartphone technology has transformed the way visitors engage with and learn about the museum's exhibits.

Notably, this project was completed without the utilization of external funds, highlighting the resourcefulness and dedication of the team involved. Furthermore, the project aligns with UNESCO's goals, contributing to the preservation and dissemination of cultural heritage.

This certificate is a testament to the exemplary commitment to innovation and education demonstrated by Shri Shivaji Education Society Amravati's Science College, Nagpur, India. May this achievement inspire continued excellence in future endeavors.

Presented on this day, 29/05/2023
