**Session 2023-24 Session 2**

**Course Coordinator Report**

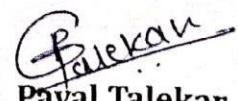

A free Add-On Course for UG students in the Department Microbiology, Shri Shivaji Education Society Amravati's Science College, Congress Nagar, Nagpur was held from 15<sup>th</sup> December 2023 to 24<sup>th</sup> February 2024. The course title was "Metabolomics". It is the complete beginner to Expert Course was perfect for anyone who wants to learn Metabolomics.

The Metabolomics course is designed to provide rapidly evolving field in biochemistry and molecular biology, focusing on the comprehensive analysis of small molecules (metabolites) within cells, tissues, and biofluids. This course provides an overview of metabolomics techniques, including metabolite extraction methods, mass spectrometry analysis, and data interpretation. It also explores the applications of metabolomics in understanding biological systems, health, and disease.

The course duration was 10 weeks (30 hours). Two theory classes were engaged on Friday & Saturday and one Practical was engaged in every week. The structure of marking system was 50 marks on theory paper and 40 marks on practical examination including 10 marks for internal. The question paper of theory examination was in MCQ type of 25 questions with four multiple choices. Practical examination was also taken on this course for 40 marks. Internal marks assessment was on the basis of regularity, attendance, assignment submission etc. All Out of 82, 80 were present in both theory and practical examination. The result was prepared and certificates were also distributed to the students.

**Action Taken** - In the Metabolomics Add-On course conducted by the Department of Biotechnology, students acquired advanced skills in metabolite extraction and analysis using state-of-the-art techniques. They learned to interpret complex metabolomics data and apply it to explore biological systems, health conditions, and disease mechanisms. The course also provided hands-on experience with practical applications and research methodologies, enhancing their expertise in the field.
