

## Guest Lecture on ‘Environmental and Us’

The Department of Chemistry, S.S.E.S Amt's Science College Congress Nagar, Nagpur, organized a Guest Lecture on ‘**Environment and Us**’ on the occasion of World Environment Day. The session was conducted online on Google meet platform, from 1.00 pm to 2.15 pm, on 05.06.2021. The speaker was Mr. Amodh Kamble, Architect and Data Analyst, Earth Rewards United Kingdom (U.K) He did B.Sc from SSES Science College Nagpur M.S. India and Post-graduation from New castle University U.K. in Hydrology and Water Management.

The session started with the welcome by Dr Kinshikar. She welcomed the online audience and the Guest Speaker. She underlined the necessity of the guest lecture session, and spoke about the significance of pollution control in the present era.

The speaker threw light on various aspect of environment, such as pollution, climate change and their impact on environment. He presented the adverse effects of the climate change on the economic growth of our country, caused by increased industrialization, urbanization, mechanization, use of fertilizers and pesticides in agriculture and mismanagement of disposing off human waste, especially in developing countries, where environmental laws are relatively less strict. The Speaker put up a lot of experimental data and presented several points from advanced research, which kindled the interest of the participants. It gave them a realistic picture of the present scenario, vis-a-vis pollution.

After the presentation, a Q&A session was conducted, where the Speaker addressed the queries of attendees posted in the Q&A chat box. The speaker also motivated the students for the study in abroad. He gave necessary information about the examination, awared about the different scholarships and documents required for application

The session concluded with vote of thanks to the Principal of SSES Science College Dr. M. P. Dhore for providing opportunity to create awareness in the field of environment and Head of department of chemistry Dr. R U Khope for their

cooperation. The convener of the program was Dr.Yogita Meshram. The program was conducted by Dr. Kinhikar madam. All the staff members and students actively participated in the program.
