Session 2017 – 2018

Department of Geology

The career Oriented Course on Groundwater exploration

Time: 10:00 AM – 5:00 PM

Well inventory survey for groundwater exploration.

- ❖ This year course was arranged for B. Sc. I, II, III-year students.
- ❖ For this course about 25 students took admission for the diploma and certificate course. There was one field visit organized for the students to Pulgaon. The student has carried out the practical exposure to carry out the well inventory survey.
- ❖ The course was completed enriching students' knowledge regarding groundwater exploration. To make students familiar with the field explorations this course was conducted students have shown their immense enthusiasm for the course.

Action Taken:

The field work for well inventory resulted in a comprehensive database detailing the location, condition, and vital statistics of surveyed wells. This information enabled accurate assessment of well's functionality and water quality, identifying those in need of maintenance or repair. Community engagement during the inventory process provided valuable insights into local water needs and facilitated education on proper well maintenance practices. The outcome also included detailed reports with recommendations for improving well infrastructure and ensuring regulatory compliance, contributing to sustainable water resource management and enhancing access to safe drinking water for the community.
