

Report on Interaction and Lecture at Bajaj Science Education Centre

Date: 30th November 2024

Occasion: Foundation Day Celebration

On the evening of 30th November 2024, I had the honor of interacting with approximately 100 students at the Bajaj Science Education Centre, Wardha, as the Chief Guest during their Foundation Day celebration.

As part of the event, I delivered a lecture tracing the history of scientific development, with special emphasis on landmark advancements from the **Big Bang Theory** to the discovery of **Dark Energy**. The session aimed to inspire students by highlighting key milestones and the transformative impact of science on understanding the universe.

The event was graced by distinguished personalities, including:

- **Shri Sanjeev Bhargav**, Chairman of the Parent Society of Bajaj Science College and Education Centre
- **Dr. Saikat Biswas**, Honorary Director

Together, we distributed prizes to students who excelled in various activities, recognizing their achievements and encouraging their continued enthusiasm for learning.

The celebration fostered a vibrant and inspiring atmosphere, leaving a lasting impression on both the students and attendees. It was a privilege to contribute to such an important occasion.
