Date: 26/09/2023

Time: 12:45 p.m.

Place: Nanded Education Society's Science College, Nanded.

Topic: The educational and agricultural revolution envisioned by Dr. Panjabrao Deshmukh

Speaker: Dr. Chandrashekhar K. Chandekar, Former Principal

To honour the legacy of Dr. Panjabrao alias Bhausaheb Deshmukh, a series of 125 lectures was organized by Shri Shivaji Shikshan Sanstha across various schools and colleges, including institutions outside our educational network. Dr. Deshmukh's profound contributions to education, society, and agriculture continue to serve as inspiration, promising immense benefits to future generations. In his introductory address, Principal Dr. Mahendra Dhore of Shivaji Science College, Congress Nagar, Nagpur, emphasized that the values and ideas upheld by Dr. Deshmukh should reach every corner of Maharashtra, ultimately shaping the society envisioned by this great leader.

Dr. Bhausaheb Deshmukh is historically recognized for his transformative work in religion, society, education, and agriculture. Following in the footsteps of social reformers like Phule and Ambedkar, he opposed caste discrimination and was a strong critic of both casteism and theistic superstitions. His role as a visionary leader in societal reform has been etched into India's history. Alongside revolutionaries like Karmaveer Bhaurao Patil of Satara and Bhau Sahib Hire of Nashik, Dr. Deshmukh's contributions to education were revolutionary and enduring. He believed that the goal of human life was to live with values and that education was the foundation for achieving such a life.

In this spirit, the lecture series was organized to promote Dr. Deshmukh's vision, aiming to instil his ideals in today's generation. Dr. Deshmukh stressed the need for educational and agricultural revolutions to build a strong nation. According to him, education and agriculture form the backbone of India, and ensuring their strength was crucial to the country's progress. His establishment of Shri Shivaji Shikshan Sanstha reflected his commitment to spreading education across all levels of society. Former Principal Dr.

Chandrashekhar K. Chandekar, in his address, highlighted Dr. Deshmukh's contributions, stating that agricultural-based industries and educational reforms were essential for India's development.

Dr. Deshmukh also envisioned the creation of agriculture-based and agro-processing industries to transform rural India. His dedication to these sectors helped advance both education and agriculture in the country. Dr. D. U. Gavai, Principal of Science College Nanded, expressed gratitude to Dr. Deshmukh in his presidential speech, stating that as a student from a modest background, it was due to the education offered by institutions established by Dr. Deshmukh that he was able to rise to his current position.

The lecture, titled "**The Educational and Agricultural Revolution envisioned by Dr. Panjabrao Deshmukh**", was jointly organized by Shri Shivaji Shikshan Sanstha's Science College, Nagpur, and Nanded Education Society's Science College, Nanded. The event featured prominent speakers, including Dr. D. U. Gavai, Dr. Mahendra Dhore, Dr. C. K. Chandekar, Dr. L. P. Shinde, and Dr. P. S. Changole. The program was smoothly conducted by Dr. Aruna Shukla, and it saw the enthusiastic participation of faculty members, non-teaching staff, and students from Shivaji Science College.

This lecture series aimed to inspire the youth to follow the ideals of Dr. Deshmukh and take up the mantle of advancing education and agriculture, which he believed were the pillars of national progress.

Report on Defensive Driving Awareness Program

Date : 6th March 2022

Right to life and safety is a fundamental right of any citizen. This is guaranteed under the constitution of every country in the world including India. By the year 2020, road accidents would be the third biggest cause of deaths in the world, says the WHO report.

There is a need for a proper policy on road safety and its implementation and education, and the medical facilities should be of a very high quality in order to give first aid to the victims, especially on the highways. Road safety does not happen accidentally, but requires deliberate efforts by government and its many partners. Too often, road safety is treated as a transportation issue, not a public health issue, and road traffic injuries are called "accidents", though most could be prevented.

To Aid this a Defensive driving awareness program was attended by N.S.S Unit at Vasant Rao Deshpande Hall on 6th March 2022 which was organized by "Yuva Daud Manch" to create Road Safety Awareness among students.

The guest delivered there prudence speech in that program followed by college teacher. The speech mostly including women Empowerment in India which is heavily dependent on many different variables that include geographical location (urban/rural), educational status, social status (caste and class) and age. Policies on women's empowerment exist at the national, state, and local (Panchayat) levels in many sectors, including health, education, economic opportunities, gender-based violence, and political participation. Salgar ma'am explained the significant gaps between policy advancements and actual practice at the community level.

One key factor for the gap in implementation of laws and policies to address discrimination, economic disadvantages, and violence against women at the community level is the largely patriarchal structure that governs the community and households in much of India. As such, women and girls have restricted mobility, access to education, access to health facilities, and lower decision-making power, and experience higher rates of violence. Political participation is also hindered at the Panchayat (local governing bodies) level and at the state and national levels, despite existing reservations for women. Ma'am also included the women condition in college level. At the program more than 150 student and N.S.S volunteers were present. The program ended with the guest speech.
